SKILLS

Interactive + Motion Design

- create unique digital experiences, based on brand DNA analysis
- solidify the design team vision, organize design sprints
- assure the product overall quality and its capabilities to satisfy users needs
- improve digital interfaces, explained with functional prototypes
- share my ideas with moodboards
- think up logo unveiling or animated social media content

Front-End Development

- markup development (Pug, SASS, NPM, Gulp , Yarn, PostCSS)
- functional programming in JavaScript
- translate my interfaces into advanced prototypes, using Vue JS 2

Learning

- complex illustrations with Cinema 4D
- advanced FE development with Nuxt.js
